DAY 8. PUERTO NATALES

Breakfast. Full-day tour to Torres del Paine (includes National Park entrance fees). We will begin our excursion departing from the city of Puerto Natales, heading to the majestic Torres del Paine National Park, which was declared a Biosphere Reserve by UNESCO in 1978 and belongs to the National System of Protected Wild Areas of the State of Chile. On the way to the park, we will visit the Milodon Cave, a Natural Monument formed by three caverns and a rock formation called "Devil's Chair," which is important because remains of skin and bones of an extinct animal, the Mylodon Darwini, a large herbivore that became extinct thousands of years ago, were found there. We will continue our journey until we reach the park's entrance, the Laguna Amarga sector. From there, with clear skies, we can take a beautiful photo of the Torres del Paine, the park's main attraction and part of the Paine Mountain Range. Later, we will stop to appreciate another symbol of the park; The "Horns of Paine" are a granite massif characterized by the black sedimentary rock at their peaks, a result of contact with magma from the Earth's interior, which shaped them thousands of years ago. We will hike towards "Salto Grande," the park's largest waterfall, approximately 15 meters high. It is notable for its power in draining Lake Nordenskjöld and feeding Lake Pehoé, a beautiful turquoise lake. After this, we will follow the internal trail past the Paine River, a point where the Horns of Paine can be seen in the foreground. Passing Lake Pehoé, we will reach Salto Grande, a beautiful waterfall, after a very short walk. Facing Lake Nordenskjöld, we will find the Horns viewpoint. A beautiful two-hour hike from this vantage point offers the most incredible view of the Horns of Paine and the surrounding landscape, which will envelop us in vibrant colors and stunning natural beauty—a prime location for photography. From there, the journey will take us to the Grey Lake area, where you'll enjoy a short walk along the beach to observe the beautiful icebergs floating in the cool waters of the lake of the same name. We'll take some time there to enjoy lunch with stunning views. After a few hours, we'll return to Puerto Natales from this point. Overnight stay.

DAY 9. PUERTO NATALES

Breakfast. Full day Balmaceda and Serrano Glaciers. Bernardo O'Higgins National Park is the largest national park in Chile. We'll be able to appreciate the lush vegetation that covers the mountains all the way to the coast, the enormous waterfalls fed by meltwater, and the presence of cormorants and sea lions—a beautiful environment in this legendary Patagonian channel. The first glacier we'll see is the Balmaceda Glacier, which descends from the mountain of the same name. It's notable for its significant retreat; it's said that ten years ago, the icefall reached the water's surface. We'll dock at Puerto Toro and walk about a kilometer through a magnificent native forest composed mainly of coigüe trees, Magellanic murtilla, chaura, and countless lichens covering trunks and rocks. We'll walk along the edge of a lake formed by the meltwater of this mountain glacier, admiring the different shapes and colors of the floating icebergs of the Serrano Glacier until we reach the foot of its imposing face. We'll enjoy an aperitif with ancient ice, followed by lunch at a traditional Patagonian ranch, where you'll savor a delicious Magellanic lamb roast accompanied by natural potatoes, salads, dessert, and beverages—an unforgettable experience. Overnight stay.
